DO IT WITH THY MIGHT

★ Faith gives healing a great impetus. The will to live has carried many past the valley of the shadow. The writer of Ecclesiastes says, "Whatever thy hand findeth to do, do it with thy might."

The man who puts his heart into both work and play gives his life purpose and direction. When illness comes, he is ready to fight it with a disciplined will. Add to this the skill of a competent physician and the combination is hard to beat. We are prescription specialists.

High School CHATTER

- Contributed

Here we are again, folky, ready to tell you some startling news that will send you bouncing on your feet.

The sixty-four dollar question is who were Rube Smuts and Pete Smith dating Friday night? Perhaps Bobby Mitchell would be a good contestant for that question!

We see that David Caldwell has returned to school. What a time he must have had to be sick for five or six days.

Did you know that Carl Taylor went to a dance at Madison College last week? My, he does get around!

By the way, Edward, have you been losing weight lately? You had better hurry, or some little girl will be disappointed Easter.

Thomas Mayberry was absent last week and Patsy missed him so much that she couldn't bear to come to school.

We are glad to see Mr. Crawley back at school after a short illness.

Who can tell us to whom Verta Martin has given her heart lately? Whoever it is, he has sent Verta smiling through the air.

Willie, did you have special business in Gladstone over the week-end, or did you just go over to see the beautiful scenery?

It is rather strange that where we live affects our social life. For example, Elizabeth lives a long way from the highway and Henry can't get there so easily, but he takes advantage of Mary Frances living near the highway. Aren't you glad, Mary, that you can be easily reached?

Senator Moses spoke to one of the Civics classes Tuesday on the government of Virginia. It was very interesting.

We are all very grateful to Mr. Lusardi for making some volley ball courts. It is wonderful to have someone at school who takes an interest in sports for the pupils.

The Canteen will be held on Thursday night. It is to be sponsored by the Citizens' Party.

We've missed Mrs. Harwood this week, who has been home on account of sickness. Some of our students are still at home with the "flu," but many have returned, and our attendance is better than last week.

Mrs. Cheatham went to Richmond last week to an art exhibit at the Virginia Museum of Fine Arts. Among the paintings was one by her daughter, Mary Frances, who is now studying at Mary Washington College.

We hope you all will have a "Happy Easter" and also that the Easter Bunny will go to you. We'll see you back at school Tuesday. So - long!

Frontal Type Thunderstorms To Be Studied by Government

WASHINGTON. — Secrets of the "frontal" type of thunderstorms which occur from the Rocky mountains to the Atlantic coast will be sought in a six-month investigation beginning April 1.

Weather Bureau Chief Francis W. Reichelderfer said the investigation will be conducted from the Clinton County, Ohio, army air field.

Army and navy planes will fly through and around the storms to measure and record their characteristics. Other observations will be made with radar ground equipment.

Timber Must Be Saved, Says County Agent

Burned timber buils no homes. It pays no wages. And County Agent R. B. Hudgins warns against burning trash in the hazardous spring months. The sparks may be wind-borne to that stand of pine on the edge of your fields.

Although abundant snows have put large quantities of water in the ground, and have settled leaves, grass and other dead material so it will dry slowly, you still can't afford to be careless. A few windy days can change everything. And then, reminds Mr. Hudgins, there is the 4 o'clock burning law. See that you have to burn something, choose a day when there is no wind. Have help available if wind should begin. Wait until after 4 o'clock.

Don't burn organic matter of any kind, advises Hudgins. It is too valuable to destroy. Improve your pastures by clipping and fertilizing the weeds rather than trying to burn them.

Fancy Trimmings for Men on the Way Back

PHILADELPHIA. — Throw away that plain suit of somber hue, Mr. Conservative Male. You're going to blossom out in color and fancy trimmings for the next year or two.

Canary yellow sports clothes, gaily colored tuxedos and brilliantly striped business suits will be the thing. And pleats, gathers and tucks are on the way back.

Don't say you won't wear them. You're likely to eat those words, according to the International Association of Clothing Designers.

Secondary Road Fund For County

The Appomattox County Secondary road budget, listing scheduled improvements for the fiscal year 1947-48, has been prepared by State Highway Department engineers in cooperation with the county Supervisors and is now available at the court house, highway officials said this week.

The budget, drafted by the Department's resident engineer at Appomattox and submitted after public hearing and approval of the board of supervisors, is subject to revision when exact revenues are determined on July 1, beginning of the fiscal year. Work will get under way, however, as soon as the weather breaks.

Secondary allocations for Appomattox total $137,240.

Highway Department officials continued this week to express concern over the condition of roads weakened by melting snow, pointing out that many unimproved roads may become virtually impassable in the wake of Virginia's most severe storms in years.

DRAFT LAW EXPIRED AS OF MARCH 31

With the expiration of Selective Service, as of March 31, it is no longer necessary for young men to register on their 18th birthday, or for veterans to report to their local boards.

One of the biggest jobs of the war period was that of the draft boards and Selective Service officials. These volunteer officials and the personnel of the draft offices merit the appreciation of the public for the successful performance of a difficult war-time task.

Mayor James Not To Seek Re-election

The Times-Virginian is informed that mayor Chas. F. James will not be a candidate for re-election in the Appomattox town lecetion June 10th this year. Dr. James is now serving his first term as mayor, to expire in September.

He has made a popular and successful mayor since succeeding C. S. McDearmon two years ago.

We are informed that George B. Buchanan, at present a member of the town council, will be as a candidate for mayor. The deadline for filing is April 10, sixty days prior to the town election June 10.

Mr. Buchanan has been very active in civic affairs in Appomattox and won the plaudits of his fellow citizens for his leadership in putting across many of the war-time fund drives.

A check at the county clerk's office this morning showed that the only candidate who had actually filed for the town council was it. G. Johnson. Mr. Johnson is a former councilman. It is presumed that all or most of the incumbent councilmen will seek re-election and will file with the clerk prior to April 10.

REA MEETING

A REA meeting was held at the court house last night, and was attended by a large number of applicants for rural electrification. The county is being serviced by two REA set-ups, those at Lovingston and at Crewe.
